

Variety	Type				Resistance			
	1st Early	2nd Early	Main	Salad	✓✓ = Good ✓ = Fair ✗ = Not	Blight	Scab	
Acoustic		●		●	✓ ✓ ✓	✓ ✓	✗	<p>This new variety has shown to have a very strong resistance to blight its texture is a bit waxier and perfect for salads and boiling. Becomes a little flourier if left to mature and lifted later in the season, making it suitable for chips, baking, mashing and roasting. High yields of round potatoes with pale-yellow flesh and a superb taste. With good disease resistance we've found Acoustic to be a superb all-rounder.</p> 
Kestrel		●			✓ ✓	✓	✗	<p>Excellent flavour and good disease resistance,. The best performing second early and good for exhibition. Good for chips and roasting.</p> 
Nadine		●			✓ ✓	✓ ✓	✗	<p>Nadine produces very high yields of bright attractive tubers. A waxy potato with white, firm flesh and skin that holds its shape well when boiled or microwaved. Its floury texture means it makes beautiful mash, fluffy roast potatoes and can be dry baked but is not recommended for salads or frying.</p> 
Spunta		●			✓	✓	✗	<p>Tubers are long with white skin and light yellow flesh. Susceptible to common scab, splitting, potato cyst. A high yielding variety great for Salads, boiling and roasting You can roast, bake, boil, fry or mash the potatoes. You can slice them up any way you want and deep fry them to create potato chips or fries!</p>
