

Variety	Type				Resistance				
	1st Early	2nd Early	Main	Salad	✓✓ = Good ✓ = Fair ✗ = Not	Blight	Scab		Eelworm
Cara			●		✓ ✓	✓ ✓	✓ ✓	High yielding, Good for general purpose	
Desiree			●		✓	✓	✗	Excellent red type, strong flavour, waxy potato. Good for exhibition. Very drought resistant and heavy cropper. Good for general purpose.	
Markies			●		✓	✗	✗	Good disease resistant, oval shaped tubers, with cream skin. Exceptional frying qualities, long term storage with low reducing sugars. Good dormancy.	
Picasso			●		✓	✓ ✓	✓ ✓ ✓	High yielding, very attractive red-eyed variety. Good keeping qualities with a mild taste. Good for general purpose	
Kingsman			●		✓ ✓	✓	✗	Early maincrop produces excellent yields. The oval tubers have a pale-yellow colour and an excellent flavour. Creamy floury flesh is perfect for making chips but equally perfect for boiled, roasted, baked and boiled – a wonderful all rounder! Good disease resistance.	
Vales Sovereign			●		✓ ✓	✓ ✓	✓	Attractive partly coloured red tubers. Good disease resistance. Ideal for the show bench. Great for mash, roast and wedges
